

ComEd invites you to discover how going **green** can help you earn more **green**.

Join us at one of our energy efficiency workshops for business and local government.

ComEd and the Illinois Department of Commerce and Economic Opportunity (DCEO) are introducing a series of new energy efficiency and demand response programs that can provide significant savings to businesses and local government on their electric bills.

These new incentive-based programs will be debuting this year. ComEd and DCEO want you to learn more about these new programs and how your organization can participate and save money.

What will you learn at these workshops?

- How we're moving Illinois into the forefront of energy efficiency
- How you can leverage our new programs and rebate incentives to reduce energy consumption, increase your energy efficiency and save money
- How to obtain your rebates
- How simple and profitable saving energy can be
- How to obtain state-sponsored, low-interest loans available to organizations that undertake energy efficiency projects from representatives of the Illinois Office of the State Treasurer

During the workshop, you will be able to view program exhibits. Throughout the day, you will have an opportunity to learn about energy-saving products and technologies. There will also be breakout sessions about specific programs. Plus, representatives from ComEd and DCEO will be able to answer your questions and tell you about program guidelines and qualifications.

You'll find our Green Ribbon workshops a profitable way to spend your time.

Our agenda includes:

- 8:00 a.m. – Continental breakfast
- 8:30 a.m. – Overview of the new energy efficiency programs
- 9:00 a.m. - 3:00 p.m. – Program exhibit tables
- 9:30 a.m. - 3:00 p.m. – Breakout sessions
- 3:00 p.m. – End of workshop

Pre-register for your workshop today.
